THEME – "INNOVATION AT DISTRICT LEVEL"

"Innovation at District Level" aims to bring about significant improvements in service delivery and further empowerment of the citizens by ensuring that timely services are delivered in a transparent and fast manner, which is beneficial to the citizens. In this context, we should focus on reforms aiming at facilitating internal and external administrative processes, such as strengthening the capacity for strategic and budgetary planning; and encouraging innovation, by introducing new organisational and communication models, and by supporting public procurement of innovative solutions.

The innovative activities include new services or new methods of providing services in interaction with users, as well as re-organisation of work responsibilities, new support and logistics systems and new management systems. The internal public sector excellence potentially benefits from ICT through several channels: public sector employees are relieved of routine tasks, several procedural steps can be outsourced, the quality of transmitted information increases while transaction costs decrease, and some tasks can be centralized as can be seen from the practices at shared service centres.

It has been the objective of the Government of India to bring to citizens, a multichannel single window delivery structure for channelizing all types of government services at the local level in the most efficient manner possible using innovations through enabled technology so that the citizens can access the services easily and conveniently at their doorstep. An effective, efficient and prompt service delivery system derives its moral and ethical basis.

INITIATIVE – "BLEED WITH PRIDE-INITIATIVE-OF IMPHAL EAST DISTRICT MANIPUR"

GOVT. OF MANIPUR"

"Bleed with Pride-initiative-of Imphal east district Manipur- Govt. of Manipur"

Till today menstrual hygiene is a luxury for most women. Rural and underprivileged women still do not have access to sanitary napkins due to sticking to old methods of using cloths as a substitute or simply because of not being able to afford the sanitary napkins. Poor menstrual hygiene can lead to several serious illnesses, including fungal infections, urinary tract infections, and cervical cancer. I must admit that as an adolescent girl, I had the advantage of using sanitary pads and was well-versed in their proper application. But as I heard stories of what my mother had to go through; tears welled up in my eyes. Instead of sanitary pads, they used cloths. During their cycles, they bathed and washed their clothes at a separate pond. Those three to four days were horrible for them. They used to keep wondering about stains, bearing the leak, irritation, itching, etc. Many women used to suffer severe infections due to this unhygienic and redundant approach towards menstruation hygiene. Well, after relentless and appreciable efforts of geniuses like various other NGOs and government initiatives. Menstrual Hygiene has gained attention, and we have seen some revolutions in this arena.

Objective:

- To empower women and encourage adolescent girls in times of their monthly menstruation period.
- Launch a massive campaign to organize and educate adolescent girls that this monthly period is a natural process and they should be proud of this as this is a symbol of womanhood.
- Encourage adolescent girls to stay neat and clean, especially during their monthly menstruation period.
- to create a major positive impact on the lives of women, especially adolescent girls.
- The project aim was implemented in the form of Jan Andolan by involving the community,

He was initiated an innovation Loksewak App ,and it was implemented at Khandwa District by Collector Mr Vishesh Garhphale, it was a huge success as all Ten Thousand plus employees were using the App for marking Attendance & Field Work, in fact Mr Garphale set up an example by himself using it every day. It was connected to Salary Preparation as Salary was prepared based on the Report of Loksewak Attendance. Its successful implementation and results has made various Districts and Departments implementing it for them

Salient Features: This Real time best practice initiative has been implemented with the following unique inbuilt features

- GPS based Attendance System
- Activity
- Tour
- Report
 - Salary Preparation Report
 - Report of Defaulters
 - Check in and Check out Report

- Notification & Task Assign
- Diary
- My Team
- Leave Application
- Phone Directory

Implementation:

Lok Sewak App is an Attendance and Field Monitoring tool based on Mgovernance and e-Governance technology, which has 2 parts, the first mobile app and the second web portal. Every government servant has been provided a user id and password to register his presence, which is mandatory to enter through mobile within working hours and attend office hours. However, the portal has also been created for effective monitoring of all the activities, which can be accessed with the supplied user ID and password for the app and can be reviewed on the basis of various facilities and reports given in the portal.

Sustainability:

The Aspirational District of Khandwa has established a new dimension in the direction of good governance by using the Lok Sewak App; an eattendance and field monitoring tool that uses Geo-tagging technology. Through this App, the district has ensured presence of Government officials at workplace thereby leading to significant improvement in the quantum and quality of work and facilitating their accessibility to the public. The App has also ensured availability of ASHA, Anganwadi workers, teachers and other key frontline workers involved in implementation of various programmes. The Portal has more than 8,500 logins per day.

Impact:

District Administration under the leadership of Collector, Shri Vishesh Garhpale, has created real time monitoring system through mobile application Loksewak App. On daily basis, pictures uploaded by AWW

while IFA tablets were taken by pregnant women. Default reports are also generated through app and action taken against those who are not doing

their work and constant monitoring of this initiative through WhatsApp groups and Mobile application (Loksewak App) for photo uploading on regular basis while providing third meal to the underweight children. It is seen that workers are providing third meal by home visits. Default reports are automatically generated through this app and action also taken against those who doesn't upload pictures daily.

The services of Anganwadi centres also get improved because community participation increased due to regular home visits by anganwadi worker for third meal. This is the sustainable initiative as there the instances where children are not eating even though food is somehow available with them.

It is also used in health department for real time attendance and activities reporting in the district. Earlier, there was no such system of real time monitoring of staff and program interventions. So it was difficult to track the staff movements and their participation in village level health programs. In Sep. 2018 and mapped all health functionaries (district, block, sector and SHC level staff) in the app. Every staff is marking daily attendance in app by reaching work station, the location and time is registered by default. When the health functionary is visiting any place to monitor activities, they are reporting place of visit, short note on activity performed and activity photos in the app. This is compulsory for everyone in health department in the district.

Awards:

- The Department of Public Service Management of the state has been awarded second place in UNSPA for its Lok Seva Guarantee Act, 2010, in the category 'Improving the delivery of Public Services',"
- PM Excellence Award, 2019 for developing a software for different interface between government and citizen for day to day activities.

Way Forward:

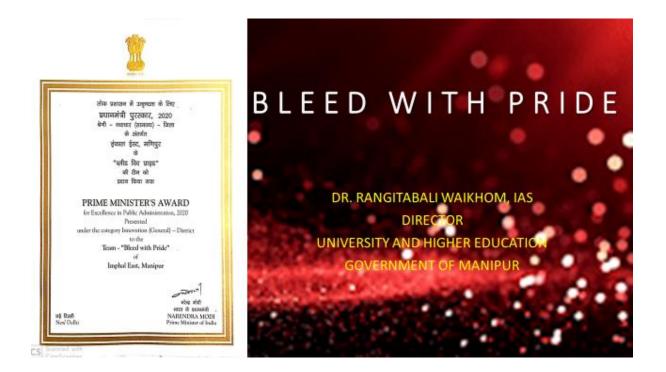

Above all departments Using Lok sewak App every government employee assigns minimum Number of tours and Activities to do in a month. All employees are visited assigned area and inspected the workplace uploaded photographs (latitude and longitude based) in app, which is monitored by the reporting officer. Maximum Indicators of Different themes (Health and Nutrition, Education, agriculture and Water resources, Basic infrastructure) on Champions of Change portal are monitored by the Lok Sewak App. It is the main key features to improve a district rank in (4th delta ranking in November 2018) Under Aspirational District Program of NITI Ayog.
